To the Community of the Keota Community School District,

I would like to take the time to thank those who donated to our phonics program. We started the year with enough kits to get us started and had students grouped in large numbers to be able to have access to a kit. The situation was not ideal, but our teachers persevered to make the kit usage manageable as possible. These kits allow students to access hands-on learning and allow them to build essential foundational phonics skills that will improve their fluency and comprehension. After putting the message out there that it would be beneficial for our students to be able to each have access to their own kit, the community members and groups responded quickly. Within three weeks, we obtained the necessary funds to equip our students with a kit of their own. It is without question that the needs of students are put at the forefront in our community. Speaking on behalf of our teachers, students and support staff...thank you, thank you, thank you! Please know that your generosity is not taken for granted and we are so appreciative of the continued support of our students in the Keota Community School District!

Sincerely,

Alex Klopfenstein  
Elementary Principal/Curriculum Director  
Keota Community School District
